Terrible Blood Poison. Suffered all a man could suffer and live. Face and body covered with awful sores. Used the Cuticura Remedies ten weeks and practically cured. Remarkable case.

I contracted a terrible blood poisoning a year ago. I doctored with two good physicians, neither of whom did me any good. I suffered all a man can suffer and live. Hearing of your *Cuticura Remedies* I concluded to try them, knowing if they did me no good they could make me no worse. I have been using them about ten weeks, and am most happy to say that I am almost rid of the awful sores that covered my face and body. My face was as bad, if not worse, than that of Miss Boynton, spoken of in your book, and I would say to any one in the same condition, to use *Cuticura* and they will surely be cured. You may use this letter in the interests of suffering humanity.
K. W. REYNOLDS, Ashland, O.

Covered with Running Sores 17 Years.

I have been troubled with a skin and scalp disease 17 years. My head at times was one running sore, and my body was covered with them as large as a half dollar. I tried a great many remedies without effect until I tried the *Cuticura Remedies*, and am thankful to state that after two months of their use I am entirely cured. I feel it my duty to you and the public to state the above case. L. R. McDOWELL, Jamesburg, N.J.

Dug and Scratched 38 Years.

I go Mr. Dennis Downing 10 years better. I have dug and scratched for 38 years, had what is termed pruritis, and have suffered everything, and tried a number of doctors but got no relief. Anybody could have got $500 had they cured me. The *Cuticura Remedies* cured me. God bless the man who invented *Cuticura*.

TELEGRAPHIC.

(By Special Telegraph.)

HUTCHESON, Kan., May 7.—The town of Stafford was nearly destroyed by a cyclone last night. Several people were killed and about fifty wounded. The cyclone swept over the counties of Rice and Stafford in a nor'westerly direction destroying crops and buildings. The full extent of the damage is not known.

HAMILTON, May 7.—The funeral of the eleven unidentified victims at the recent railway accident near this city took place this afternoon. Flags were floating at half mast and many places of business, all the schools and civic offices were closed. The bodies of the adults were encased in black caskets, and those of the two children in white caskets. Many beautiful floral designs were contributed. Eleven hearses were used. One large grave was made the receptacle of the eleven caskets, but they were so arranged that six inches of earth was placed between each casket.

OTTAWA, May 8.—A meeting of the directors of the G. N. W. Central Ry will be held to-morrow when it is said arrangements for the transfer of the road to the Northern Pacific & Manitoba Co. will be formally completed. One of the directors admitted to-day that negotiations were going on satisfactorily, in answer to an inquiry as to whether the land grant from the Dominion Government had not lapsed. The same director said he did not think so but that in any event there would be no difficulty in getting it renewed even if some of our ultra loyalists do object to giving Dominion lands to a Yankee railway company.

KALAMAZOO, Mich., May 8.—A shocking accident occurred at 6:30 this evening at the west Main St. crossing of the Michigan Central. A street car containing several ladies and two gentlemen were crossing the track when a switch engine dashed down upon it from the east at a high rate of speed, and the driver being unable to get the car out of the way, the helpless passengers were hurled to a terrible death. It was but the work of a moment and the dreadful catastrophe was over. The street car was carried almost to Academy street, the pieces flying in all directions, and the human freight being mangled in a fearful manner. Six of the ladies were killed.

LONDON, May 8.—The cross examination of Parnell was concluded to-day. Attorney General Webster recurring to the examination of Mr. Parnell's private bank account, wanted to trace a number of cheques and a warm discussion ensued.

Archbishop Walsh took the stand and testified that he came to the conclusion before 1879 that there was need of a defensive land organization and was proceeding to give his opinions of the necessity for such an organization when Justice Hannan interposed, saying the inquiry must be limited to whether or not a land league was necessary. Attorney General Webster submitted that matters of opinion were not admissible. Mr. Biggar urged that opinion evidence had been given over and over again by "hirelings of the Government." Justice Hannan warned Biggar that he must not make use of such expressions. Mr. Biggar said that unless such evidence was admitted the whole inquiry would end in a farce. The judges retired to consider the matter privately, and on their return Justice Hannen announced that they had decided that it was not permissible to ask any witness, however distinguished, abstract questions of opinions. The facts known to the witness ought to be laid before the court before opinions based thereon were mentioned. The mere expression of Archbishop Walsh's opinion, the judge said, was inadmissible. The archbishop continuing said that in the course of his visits through his diocese he had abundant means of knowing that the league denounced outrages. Many priests had joined the league with his full approval. He saw nothing in the action of members of the league to forbid the clergy joining the organization.

On Tuesday evening last it began a light rain and by night it had gone through several changes and finally settled down to a heavy snow storm. On Wednesday morning the ground was covered by about an inch of snow, but it did not lie long as it soon melted.

It is time our civic fathers should look after the dilapidated sidewalks. The one on Main street west of McLeod's is simply a disgrace to the town. It should either be taken up or put in proper repair; as it is at present it is not fit to walk on, and if precaution is not soon taken and the walk properly repaired, our town may be mulcted in damages for injury that is liable at any time to happen. A stitch in time saves nine.

FRIDAY, MAY 10, 1889.

Complaints are being made by our firemen that the citizens do not take the interest in their organization that they should. We entirely agree with them. Nearly all the members of No. 2 fire company are young men who have nothing or very little to lose by a fire, and as they give their services for nothing and keep up their organization, those citizens who do not belong to the company and who might be heavy losers in case of fire could not do less than give the boys some encouragement, even to the extent of attending their meetings. That would not be much to do, but it would show our volunteer firemen that the citizens took an interest in their welfare and appreciated their efforts. These fire companies should be kept in a thorough state of efficiency, for although we have been singularly free from accidents by fire in the past, there is no telling how soon some old frame building may take fire, and with a favorable wind at the time, the result might be very disastrons. The Town Council should also secure a lot in a central situation, before the price of land goes up, and build a rough shed in which to store the fire apparatus, so as to protect it against the weather and prevent the property being stolen or lost.

A rumor, which we trust will prove to be true, is afloat that the Hon. Mr. Dewdney will visit Prince Albert towards the end of the present month. The late Mr. White was here in 1886, since which no cabinet minister has been in this district. Mr. White's visit has been most beneficial to us in many ways, and we believe that Mr. Dewdney's object in coming up now is to learn by personal contact with the people whether any grievances exist and to what extent. Mr. Dewdney, since becoming Minister of the Interior, has reformed some of the abuses which existed in the Northwest, and seems derermined to administer the affairs of his Department in the way which will be most to our advantage. If he visits this place, as we trust he will, we consider it the duty of our citizens to give him the fitting public reception that his position and merits deserve at their hands.

Our future looks brighter at present than it has done for the past year. We have now every reason for believing that next year, if not this, will see a railway running into Prince Albert, and that work will be commenced at once. While we have full faith that this road will be built we would advise people to keep cool and not get excited over the prospects of a boom or the chance of their expectations of making fortunes being realized. The advent of a railroad will improve the condition of everyone in the district, but we do not think it will cause a great rise in real estate; prices are now pretty high, and until a large immigration takes place, they will not increase much.

We wish to call the attention of our local representative organizations, such as the Town Council, Board of Trade and Agricultural Societies to the necessity that exists for laying the capabilities and resources of this district before the people of eastern Canada and other countries. If the railway comes to Prince Albert we want a large immigration and the only way to get a good class of settlers is to make known the advantages which the district possesses as a field of settlement. Hitherto such literature would not have brought in many people, but now it has become a necessity. We think some of the bodies referred to should take hold and employ some good man to set before the outside world in pamphlet form the vast superiority of Saskatchewan as a home for emigrants from other places. We have in our midst men well qualified for the task and we have no doubt but that some of them could be induced to write such a pamphlet if the cost of publication were guaranteed

Our city fathers are to be congratulated on the establishment of a ferry over the river within the town limits, more especially as it has not cost the town one cent. No more favorable arrangements could possibly have been made. Messrs. Russell & Davis, who own the ferry, are also deserving of the thanks of the town for the enterprise they have shown. They have the exclusive right to the ferry privilege within the town limits for three years, and we trust that they will find it a paying investment. The ferry will prove a great boon to our citizens, as there are some beautiful drives north of the river, and it opens up a short road to the Snake Plain settlements and will bring a good deal of trade to the town.

The arrival of new settlers continues to the increase. The greatest number arriving by one train was on Saturday last, when sixty-five got off at Regina station. On Sunday and Monday nine car loads of stock came in. Immigration Agent Stemshorn has the names of over one hundred who have arrived during the past week.

Gabriel Dumont and Maxime Lepine were in town on Tuesday. They interviewed Lieut.-Governor Royal and laid before a petition from a large number of half-breeds in the Saskatchewan country. The half-breeds are seeking compensation for all their losses during the rebellion of '85. GENERAL NEWS.

Ottawa, April 13.—The Government sat three hours to-day discussing their railway policy. Chapleau's friends brought up his appointment as Minister of Railways and Canals, but Sir John got the matter postponed until the Secretary of State's arrival.

Montreal, April 23.—Another push up in sugar is noted. An advance of two shillings took place to-day in Great Britain. Here granulated was at least ⅛c higher, yellows ⅛c to ¼c. Refiners talk of 7¼c for the lowest yellows.

The Bank of Montreal dividend was expected to be declared to-day, but the Board adjourned without action. It is believed nothing will be done until Sir Donald Smith returns from New York, whither he has gone to meet Sir George Stephen.

Andy Moloney, charged with robbing Von Reinholtz, a traveller of Ellis & Co., Toronto, of a large quantity of jewellery, was re arrested this morning, having failed to secure new bail.

The jail here is so overcrowded that thirteen prisoners will have to be sent to Three Rivers to-morrow and twenty-five to Quebec.

Quebec, April 23.—Flags were flying on all public buildings and national society headquarters here to-day in honor of St. George's Day, which was further honored by a special service in the Anglican Cathedral in the evening.

Everything is being prepared for the opening of navigation. The Richelieu company pontoons were put down yesterday. The steam schooner Florrie and two sailing schooners have been sent to Matine to discharge the cargo of the barque Mary K. Campbell, of Montreal, ashore there since last fall. Davis' new wrecking steamer Lord Stanley, recently built on the Clyde, will likely be the first arrival from sea, as she pasred Cape Race inward bound.

St. Thomas, Ont., April 23.—In deference to the Ministerial Association, which some time ago started a provincial agitation for the reduction of Sunday traffic on the railways, Supt. Morford has issued an order to the effect that in future Sunday freight traffic on the Michigan Central railway through Canada will be discontinued.

Sherbrooke, April 23.—Donald Morrison passed a good night, better than for a long time. There is little fear of inflammation setting in. While the doctor was examining Morrison in jail he found a small six-calibred revolver secreted in his shirt. As soon as he is able Morrison will be brought up for examination, but his trial is not expected to take place before October. The feeling in some quarters is bitter against the authorities for breaking faith with Morrison and his friends. They say they will be able to prove that the authorities promised to suspend operations. This will probably tell in Morrison's favor at the trial.

Aylmer, April 23.—The remains of a man supposed to have been Gifford Williams, who disappeared mysteriously eighteen years ago, have been discovered in an old well at Springfield. An investigation is being held. It is believed to be a case of murder, and the evidence will be forthcoming to convict the perpetrators.

Toronto, April 23.—On the colonist party which left here for Manitoba to-night there were two trains with about 200 settlers. Next Tuesday's will be the last colonist party of the season.

Prescott, April 23. Gainsford's residence and McGregor's bakery was burned to-day. Miss Kate Gainsford was burned to death. Loss, $13,000.

Halifax, April 24.—The schooner Elvira, from Jonesport, Maine, for Apple River, is ashore on Fog Cape D'or, and is now full of water and will be a total wreck. The crew were saved.

Berlin, Ont., April 23.—The evangelical conference, sitting here, has passed a resolution condemning the Quebec Government for incorporating and endowing the Jesuits and the Dominion Government for permitting it to do so.

Halifax, April 23.—John Scofield and his child, of Beach Hill, near Kenville, was killed by lightning striking the house. His wife and three other children were saved.

St. George's Day was celebrated here with the usual procession and service at St. Paul's, a sermon by Bishop Courtney and dinner at the Queen's.

Arch. McPhee, J.P., of Gay Rivers, Halifax county, has been arrested for forgery, in the endorsement of a note for $100.

Windsor, April 23.—Sol White is disposing of some of his property and intends going to Europe, where he will remain some time.

The Manitoba exhibit car arrived here this morning, and has been crowded all day with people.

Point aux Trembles, Q., April 23.—Farmers in this parish have commenced seeding.

Port Arthur, April 23.—The Athabasca cleared for Owen Sound with 20,000 bushels of wheat, 10 cars of bran, 20 cars of deck freight, and a fair list of passengers.

Victoria, B.C., April 23.—The corner stone of the provincial royal jubilee hospital was laid this afternoon by Mrs. Nelson, wife of Lieut.-Governor Nelson. A detachment of marines from H.M.S. Swiftsure, and the band from the same ship, enlivened interest in the proceedings. About 3,000 people were present, including 500 school children, who sang hymns. Addresses were made by the president of the hospital, T. R. Smith, Mayor Grant, Judge Crease and others. Mrs. Nelson was presented with a silver trowel, beautifully chased and engraved, and the lady, after a brief reply to the president's address, went through the ceremony of laying the stone, declaring the same well and truly laid. The proceedings were brought to a close with prayer by Archdeacon Scriven and the singing of the National Anthem by the school children.
